❖ Why should Afghanistan patients choose India for various healthcare treatments and procedures?

There are countless reasons as to why India should be selected as the ultimate medical tourism destination. Envision a complex medical process being done in India by the most skillful surgeons and at prices as low as one-tenth of what it costs in other principal countries. That is India! India has some of the best experienced professionals in each and every medical domain and this fact has now been acknowledged by individuals around the globe. Right from quality of facilities, selection of procedures and treatment choices, convenience of top-notch infrastructure and skillful manpower to carry out any medical process, to zero waiting time, the list of benefits seems endless and goes on.

With the most competitive charges for treatment, India is a very rewarding destination for individuals who desire to get treated here. India offers world-class medical services, at par with any of the western nations. All top and recognized hospitals have invested a good deal in technology and operative techniques. Thus, intricate heart surgeries, cancer cure and surgeries, neurosurgeries and even general surgeries are handled by using high-end technology for safe and better results, to curtail complications, facilitate quicker recovery and decrease the length of hospital stay. With the superlative infrastructure, the most advantageous medical facilities, together with the most competitive prices, you can be guaranteed of getting simply the best in India.

❖ Some of the reasons to choose Stem Cell Care India

Stem Cell Care India appoints a Guest Relation Officer (GPO) to every patient for helping the assigned global patient and families. The GPO offers all the essential help required i.e. hospital registration, admissions, appointments, payments, medical billing, foreign exchange, language translators, registration with the Foreigners' Regional Registration Office (FRRO), multi-cuisine tailored menu, special dietary arrangements, visa extensions, locker facility, local tourism/travel assistance, hotel and lodge accommodation outside the hospital. Some more facilities include:

- Quote/treatment plan

- Visa assistance letter

- Complimentary airport pick up

- Committed guest relation officers

- Scheduling of all medical appointments

- Synchronization of the admissions process

- Cost estimates for projected treatment

Transportation and other amenities related to pre and post discharge visits will be arranged on a complimentary basis by the firm. We will help you with your travel plans within New Delhi and airport transfers. Our executives will guide you with transportation, location and other patients' prerequisites. Fill in our online application form and let us know how we can help you with the superlative treatment and care.

❖ Process flow of coming to India for stem cell therapy

Let us comprehend the procedure of coming to India for efficacious and economically priced medical treatment. The procedure starts with the patient sending his/her query and medical history via email or by discussing the medical ailment over a phone call with a healthcare manager. The reports and the case are accurately studied by our senior surgeons/physicians for a comprehensive medical opinion, which is then conveyed to the patient so that the patient can comprehend and plan the next steps in view of that. As a compulsory protocol, all reports are studied and gone through by not less than three experts for unprejudiced inclusive medical opinions. After this, the patient can travel to India on pre-confirmed dates. Moreover, we help our patients from Congo in getting medical visa approval plus we also arrange all logistic and travel linked requirements. More details can be read at the Step by Step Guide for better understanding of the whole procedure.
